10x8 POLE Backdrop

FILE REQUIREMENTS:

- COLOR MODE: CMYK ONLY
- Resolution: 72 125 DPI
- File size must be less than 800 MB
- Please delete template layer prior to saving
- Keep all important elements (logos, text, etc.) 1" inside border. Extend border all the way to edge of template.

No bleed necessary, but keep all important elements within 3" from sides where poles will be.

- Illustrator Users: Leave images embedded*. Convert all text to outlines.

 Save as PDF.
- Photoshop users: Please save as a JPG and send to PB Backdrops to be saved as PDF. Photoshop PDF will generate errors.

*If your file is too large to save with images embedded, please unembed all images, save file as PDF and send backdrop file, along with all images used in file, in a folder. You may send using GoogleDrive, FileMail, Dropbox, etc.
